

Make it Happy: A short guide to long term relationships

Make it Happy is a little book about relationships written as a conversation between a man and a woman. From Housework, Money and Sex through to Love and Fidelity, issues are explored from a male and female point of view. From how to get a man to pick the towels up off the floor without being accused of nagging to the truth about sex in long term relationships, John and Sadie explore relationship issues frankly and with humour. How can couples argue and survive? How do men and women stay faithful? Is compatibility really all about matching cagoules? Successful relationships are all about sharing and John and Sadie share their experiences of love and life from how to survive after a separation to how to live on fried rice and custard before payday. Funny, sad, insightful and reflective and written by two people who dont claim to be perfect.
