

747: Creating the Worlds First Jumbo Jet and Other Adventures from a Life in Aviation

747 is the thrilling story behind the Queen of the Skies; the Boeing 747; as told by Joe Sutter, one of the most celebrated engineers of the twentieth century, who spearheaded its design and construction. Sutters vivid narrative takes us back to a time when American technology was cutting-edge and jet travel was still glamorous and new. With wit and warmth, he gives an insiders sense of the larger than life-size personalities; and the tensions; in the aeronautical world.
