

## A Gentleman By Any Other Name (USA Today Bestselling Author)

Old enough to remember his beginning, Chance Becket has spent all of his thirty years trying to forget, hiding his unsavory youth behind a society marriage and a prestigious position with the War Office. But now the widower must confront his past and return to the windswept coast of Romney Marsh where the ghosts of his childhood still linger. Newly hired governess Julia Carruthers is delighted to be in charge of Chance's young daughter and eager to escape the confines of London. Yet the excitement of the journey to her employers' strange home is nothing compared to the attraction between them. And when Julia sees something she should not, she wonders if Chance's sudden intentions are prompted by ungentlemanly desires or his need to protect his family's secrets.
