

A History of God: The 4,000-Year Quest of Judaism, Christianity, and Islam

Strange as it may seem, the idea of God developed in a market economy in a spirit of aggressive capitalism, Karen Armstrong asserts in her fascinating, best selling work. She provides a compelling account of the growth of Judaism, Christianity, and Islam, as well as the historical, philosophical, intellectual, and social developments that shaped - and were shaped by - these faiths. As times have changed, so have our ideas about God, and the future may well bring a new concept. A former nun who has become one of Britains foremost commentators on religious affairs, Armstrong combines thorough analysis with provocative prose in her startlingly original history.
