

A Personal Record (The Cambridge Edition of the Works of Joseph Conrad)

Serialized in Ford Madox Fords English Review in 1908-9, A Personal Record (1912) both documents and fictionalizes Conrads early life and the opening stages of his careers as a writer and as a seaman. It is also an artistic and political manifesto. This volume provides the most accurate and scholarly edition available. Mistakes introduced by typists and earlier publishers have been corrected to present the text as Conrad intended it. The introduction traces Conrads sources and gives the history of writing and reception. The essay on the text and the apparatus set out the textual history. The notes explain literary and historical references, identify places, and gloss foreign terms. Four maps and a genealogical table supplement this explanatory material. This edition of A Personal Record, established through modern textual scholarship, presents Conrads reminiscences and the volumes two prefaces in forms more authoritative than any so far printed.
