

Aerotropolis: The Way Well Live Next

From Dubai to Amsterdam, Memphis to South Korea, a new phenomenon is reshaping the way we live and transforming the way we do business: the aerotropolis. A combination of giant airport, planned city, shipping facility and business hub, the aerotropolis will be at the heart of the next phase of globalization. Drawing on a decades worth of cutting-edge research, John Kasarda and Greg Lindsay offer a visionary look at how the metropolis of the future will bring us together - and how, in our globalized, flat world, connecting people and goods is still as important as digital communication. Airport cities will change the face of our physical world and the nature of global enterprise. Aerotropolis shows us how to make the most of this unparalleled opportunity.
