

Alices Adventures in Wonderland (Illustrated) (Classics)

This ebook is based on the work of Lewis Carroll Alices Adventures in Wonderland (commonly shortened to Alice in Wonderland) written in 1865. The text of the novel is complete and unabridged with all the original illustrations by John Tenniel, more few else. It tells of a girl named Alice who falls down a rabbit hole into a fantasy world populated by peculiar, anthropomorphic creatures. The tale plays with logic, giving the story lasting popularity with adults as well as children. It is considered to be one of the best examples of the literary nonsense genre, and its narrative course and structure, characters and imagery have been enormously influential in both popular culture and literature, especially in the fantasy genre.
