

## Teachings of the Buddha Second Edition

The sixteen sutras in this book are English translations of texts selected from the Chinese Buddhist Canon. Thirteen of them have never been published in book form until now. The translators introduction to Buddhist doctrine provides an organized background for readers at all levels to better understand and appreciate the teachings in these sutras, which cover a wide range of interesting topics. For example, in Sutra 1, the Buddha teaches karmic requitals and how one can avoid or mitigate unfortunate requitals. In Sutra 6, He predicts that long after His Dharma has perished, the next Buddha, Maitreya, will bring the Dharma back to this world. In Sutra 13, the Buddha reveals the mystery of consciousness, giving a detailed description of ones rebirth according to karmic force. In Sutra 14, He declares the eternity of nirvana and ones Buddha nature. In Sutra 16, He affirms that ones great compassion for all sentient beings will quickly lead one to Buddhahood. These English translations are easy to read, and Buddhist terms are clearly explained in the glossary. One can read this book for pleasure, or study it for spiritual development. One can also recite the sutras, prayers, and mantras as a spiritual practice. Students in Buddhist Studies certainly can use this book to support and enhance their learning.
