

Touch a Four Leaf Clover

RE-RELEASE It is never wise to piss off a goddess, especially a flame haired Irish goddess with a temper as hot as her tresses. That was something cousins Ciaran and Connor found out the hard way. For one night of folly the cousins must walk the earth, deprived of the thing that caused their downfall women. No contact with any member of the opposite sex until they find their perfect mate. A quest that seemed easy, but has proven to be impossible. Just when they think they will never find a woman for each of them to break the curse they so richly deserved, the Luck of the Irish smiles upon them. Both end up in the United States; one in Chicago and the other in San Diego. The two cousins get the shock of their lives when they met the women meant to be theirs. Not exactly what they had expected and far outside anything theyd ever dealt with when they were still human. Will they be able to keep these women for their own or just have a taste of ecstasy to tease them rest of their immortal lives.
