

Because (Seven Year Itch Book 4)

Ive heard if you can make it through the first seven years of marriage youve made it past the tough part and its smooth sailing. Whoever said that was an idiot. Ive been married for seven years, and in that time Ive waited for my immature husband to grow up and become a responsible man. It still hasnt happened, and Im at the end of my rope. I need him to be a father to our child, not someone who needs his own toys to be content. I want a partner, not a guy more concerned about his friends than his wife. This is my marriage, and before I throw in the towel Ive decided to do something drastic to make it happen. Im Shayla Vincent and this is my story.
