

Bolt-Hole

Terrell Washington's childhood was a trifecta of suck: being black, gay, and poor in America has no upside. Terrell climbed his way out of the hood only to hit a glass ceiling and stop, frozen, a chain restaurant bartender with a journalism degree. His one bright spot is Colby Meyers, a coworker who has no fear, no inhibitions, and sees no boundaries. Terrell and Colby spend their summers at the river and their breaks on the back dock of Papianos. As terrified as Terrell is of coming out, he's helpless to stay away from Colby's magnetic smile and contagious laughter. But Colby is out of college now, and he has grand plans for the future—plans Terrell is sure will leave his scrawny black ass in the Sacramento dust until a breathless moment stolen from the chaos of the restaurant tells Terrell he might be wrong. When the moment is shattered by a mystery and an act of violence, Terrell and Colby are left with two puzzles: who killed their scumbag manager, and how to fit their own lives—the black and the white of them—into a single shining tomorrow.
