

## BorderGate: The story the government doesnt want you to read

There is a cancer growing on the Department of Homeland Security (DHS). The best and brightest agents we have are being systematically harassed out of DHS. This is a story of bureaucracy run amok at the expense of our national security. We are less safe now than before 9-11, even though billions of taxpayer dollars have been spent. Why? This is the gripping true story of National Security Whistleblowers and their courageous fight for justice against the very people who are supposed to be protecting us. If these whistleblowers lose their fight we all lose. What Americas enemies have not been able to accomplish will be done instead from within our own government. The Honorable Roger T. Benitez, United States District Judge, while presiding over Fitzgerald-Nunn Vs. Department of Homeland Security: Boy, theres something about this that doesnt pass the smell test! All Americans who read this book should worry about the governments ability to protect us from terrorist and drug lords.-Mark Edwards, former Marine and host of the Wake Up America radio show. They who give up essential liberty to obtain a little temporary safety, deserve neither liberty or safety.-Benjamin Franklin This should be one of the few books that not only every attorney should read, but every one who calls themselves a patriot.-Attorney and Veteran Austin Price This is a MUST READ for anyone who is concerned with the long-term viability of the republic.-Travis Alexander, CEO World Wide Protective Services, and former Marine. A coincidence is a remarkable concurrence of events or things without apparent connection-Here too many things connect.-Attorney Gastone Bebi during land mark case Fitzgerald-Nunn Vs. Department of Homeland Security
