

Lost and Found (Betraying the Billionaire Part 1)

When Emma Crawford entered the corporate world, she never dreamed she would be blackmailed into committing corporate espionage. But her boss - technology tycoon Alexander Portman - has made it clear she has no other option than to do what he wants. But when Emma starts working as a personal assistant to James Bourque, the man whose company shes supposed to spy on, she cant help but find herself falling for him, hard. Torn between doing whats best for her career, and whats best for her heart, Emma has to make a choice. Will she betray one of the most powerful men in the tech industry for a chance at redemption, to make things right with James, or will she sacrifice a chance at finding true love for her career and passion, as shes done so many times in the past?
