

## Camera (Hollywood Nights (Book 6))

Dagney was a self-reliant tomboy all of her life. She wanted Foster, but he happened to be the lead singer of a band. She simply didn't know what to do to get his attention. Foster didn't really understand American girls. He spent half his life in Ireland, where he was born, and England where his father lived. He had tried to get Dagney's attention and they were admittedly friends. He couldn't get past that point. Then a Valentine's Day celebration offered two very different people one opportunity to risk it all without risking their identity. Once the mask is off, can Dagney accept that Foster not only knew, but wanted her all along?
