

## Nameless Series Boxed Set

When a one-night stand leads to accidental pregnancy, Erin and Seth are determined to keep their partnership purely practical, but they end up with more than they could ever expect. The Nameless series includes three sexy, true-to-life romances about how two complicated people come together in love at different stages of life. **Nameless:** After a failed marriage to a domineering man, Erin refuses to be controlled by anything or anyone. That includes Seth, the father of her baby--a man who was supposed to be only a one-night-stand, a man whos used to always getting his way. Theyll work out an arrangement in the best interest of their baby, but what they have will never be love. **Christening:** Erin adores her husband, but she never sees him anymore, and he seems to drift farther away every day. She loves being a mother, but she wants to be Erin too--and she doesnt think she is anymore. She and Seth have never stopped loving each other. Its just that love can be harder than she thought. **Incarinate:** Seventeen years ago, a one-night stand between Erin and Seth led to an accidental pregnancy, which led to partnership, then to love, then to marriage, then to family. Through all of that, their lives have never gotten less complicated. Now their daughters are teenagers, and they have to adjust to a new stage of life.
