

Caught Up in Her (Caught Up in Love)

Discover the thrillingly romantic New York Times and USA Today Bestselling Caught Up in Love series by Lauren Blakely, the author of Seductive Nights! A sweet romance so perfect it could have been scripted by Hollywood. But can a first love survive past the first summer?... Im not going to say it was love at first sight when I met her. I dont believe in that. Because love isnt about falling for someones looks. Though she was beautiful in every single way, from her dark, wavy hair to her gorgeous brown eyes, to the soft curves of her body. But thats not why I fell so hard for her that summer. She took my breath away for reasons that had nothing to do with her looks. It was the the movies, the conversations, the walks through the small town, the nights on the beach with the waves rolling in, the way I could hold her hand and feel as if the world had simply melted away and we were all that was left. So, there was no love-at-first-sight. That would come later, and if it happened first it would take away all the reasons that stayed with me for the next five years. Even though youre not supposed to fall for your best friends little sister. But that didnt stop me...
