Mary Karr told the prize-winning tale of her hardscrabble Texas childhood with enough literary verve to spark a renaissance in memoir. *The Liars Club* rode the top of *The New York Times* bestseller list for more than a year, and publications ranging from *The New Yorker* to *People* picked it as one of the best books of the year. But it left people wondering: Howd that scrappy kid make it outta there? *Cherry* dares to tell that story. Karr picks up the trail and dashes off into her teen years with customary sass, only to run up against the paralyzing self-doubt of a girl in bloom. In this long-awaited sequel, we see Karr ultimately trying to run from the thrills and terrors of her sexual awakwening by butting against authority in all its forms. She lands all too often in the principals office and--in one instance--a jail cell. Looking for a lover or hearts companion wholl make her feel whole, she hooks up with an outrageous band of surfers and heads, wannabe yogis and bona fide geniuses. Karrs edgy, brilliant prose careens between hilarity and tragedy, and *Cherry* takes readers to a place never truly explored--deep inside a girls stormy, ardent adolescence. Parts will leave you gasping with laughter. But its soaring close proves that from even the smokiest beginnings a solid self can form, one capable of facing down all manner of monsters.
