

Heaven: A Bright and Glorious Place

The author attempts both a personal and researched view of Heaven in this work. Betty Malz claimed to have glimpsed Heaven when, following a severe illness, she was clinically dead for 28 minutes. Much of the authors teaching is in scripture, but she also explores personal accounts of near-death experiences from both children and adults who have miraculously survived. The author has previously written six books, including My Glimpse of Eternity and Angels Watching Over Me.
