

Churchill: The Life: An Authorised Pictorial Biography

When Winston Spencer Churchill was born in 1874, no one could have predicted the path that lay ahead. But, as it turned out, from Winstons undistinguished academic career to his front-line experiences as a soldier and journalist whether in India, Sudan or Cuba, and during the Boer War or in the trenches of World War I; through his unparalleled political career with all its ups and downs; to his finest hour leading Britain during World War II, he was never to be far from the worlds attention. Now the boy, the soldier, the writer, the orator, the politician, the statesman and the family man are all brought to life in this absorbing illustrated book. Featuring both letters to Mama from the homesick - but rebellious - schoolboy and telegrams to Stalin, it highlights some of the most gripping communications from the Churchill Archives. Facsimiles of hand-annotated speech notes are paired with fascinating memorabilia, such as the poster for the reward for his capture during the Boer War, a specimen of one of his infamous cigars, a favourite gramophone record and his Parliamentary despatch box. This book also showcases pictures from his family photograph collection, providing a more intimate portrait of Churchill the husband, the family man and even Churchill the animal lover. Exhaustively researched, Churchill: The Life includes previously unpublished images - such as Winston as a cadet at Harrow and his caskets final journey into Bladon cemetery - as well as rare images of him as a baby and specially shot artefacts from family archives. Together with his unique selection of images, acclaimed historian Max Arthurs evocative and insightful narrative text gets to the core of Winstons character, using his own words and those of some of those closest to him, to provide a comprehensive study of the man and his life. This is a stunning tribute to a remarkable man.
