

Covenant Marriage: Building Communication and Intimacy

The Covenant Marriage movement encourages Christians to exercise the promises and expectations of God's covenant love in marriage. Practicing Covenant Marriage means couples must offer each other steadfast loyalty, forgiveness, empathy, and commitment to resolving conflict so as to encourage each other in spiritual growth. In this new book, Dr. Chapman shows how communication and intimacy are two of the most important aspects to developing a successful Covenant Marriage. At the heart of it all are the principles that lasting answers to marital growth are found in the Bible, your relationship with God enhances your marriage relationship, communication is the primary vehicle by which two persons become one in the marriage relationship, and the idea of biblical oneness involves not only sex, but intellectual, spiritual, emotional, and social oneness.
