

## Deep Religious Pluralism

A groundbreaking scholarly work, *Deep Religious Pluralism* is based on the conviction that the philosophy articulated by Alfred North Whitehead encourages not only religious diversity but deep religious pluralism. Arising from a 2003 Center for Process Studies conference at Claremont Graduate University, this book offers an alternative to the version of religious pluralism that has dominated the recent discussion, especially among Christian thinkers in the West, which has evoked a growing call to reject pluralism as such. Renowned contributors of a diversity of faiths include: Steve Odin, John Shunji Yakota, Sandra B. Lubarsky, Jeffery D. Long, Mustafa Ruzgar, Christopher Ives, Michael Lodahl, Chung-ying Cheng, Wang Shik Jang, and John B. Cobb Jr.
