

## Whisper (New Adult Romance)

Mia Kent lives a charmed, tortured life. Fresh off the success of her teen drama TV series *Carolina, California*, movie executives want her to headline their blockbusters, and record executives are vying for the chance to release her first solo studio album. And then Mia starred in three movies that took her from household name to household joke. Mia made more mistakes than she can count, turning to anything that can numb her pain. What the world doesn't know is that her mother is much worse than any pill she swallowed. Despite her best efforts, Mia can't quiet the screech of her past, nor the siren song of her waning fame. Until she meets him. Liam Walker knows all too well what it's like to fall from grace. He's a soulful rocker with a one-hit wonder under his belt, but he still believes in love--and he believes in Mia. He doesn't know how to save what's left of his career, but he knows that they belong together. He breathes for her. If only she would let him in... *Whisper* is a spin off story from the best-selling *His Submissive* series. *Whisper* is a New Adult (NA) romance.
