

Edwina

Small town librarian Edwina Blair found herself stranded and alone in Edinburgh, Scotland. When the hotel clerk told her she no longer had a room, she fainted - right into the arms of a tall Scot standing behind her. Anxious to meet his fiancée, Alex Dunneginn whisked Edwina off to his castle and that's when the trouble began. The handsome Laird became the hero for the novel Edwina was writing. And Cecelia, her beautiful, entrepreneurial sister, the heroine. Could it be any other way? Edwina would find out that the stubborn Scot did not always play the part she wrote for him.
