

## From Out of the Shadows

Croat was a Lupan, one of the half-man, half-beast creatures long thought to be extinct or fabricated from fairy tales. Lupan were folklore, nothing more than a myth. Tora was a Sensitive. Her kind really existed, and normal people feared Sensitive because it was common knowledge that all Sensitive were evil and practiced the dark magicks. Captured and thrown together inside Baron Agrinos dungeon, they discovered a connection between them that defied all reason, and a love that transcended all boundaries. But is their love strong enough to stop the baron from what he do with every Lupan he plans to capture? Or, worse, what he do with Tora once he learns what she is?
