

Great Christian Thinkers: From the Early Church Through the Middle Ages

In brief portraits, Pope Benedict XVI offers engaging, perceptive, and edifying sketches of some of the great thinkers and writers of Christianity, from early Christianity through the high Middle Ages. Pope Benedict discusses notable theologians from East and West but also many figures whose primary witness was as ascetics, poets, mystics, and missionaries. Always with an eye to their deepest religious convictions and struggles, the Holy Father presents these great thinkers importance for the church and for Christian life today.
