Would you like to build your business? Would you like to be able to meet people when you are out and about? Would you like to feel comfortable and confident when you need to attend an event where you don't know anyone? Networking is an essential part of building wealth. - Armstrong Williams In this book you will learn the skills acquired from over 20 plus years of Networking to build business. The author has successfully networked with many different cultures and at every level of business. I have learnt the hard lessons through trial and error and have built a strong network of people that I work with to assist and to be assisted by. Now I can calmly, coolly and confidently walk into a room full of strangers, on my own, and strike up conversations with whomever I want to in that room. Patricia Ryan, AUTHOR Networking is not about selling. Networking is not about collecting business cards to fill the rolodex. Networking is about building relationships. If you want to be able to build a strong network for business and pleasure this book is a must have tool.
