

# Feng Shui for Lovers: How to Create Harmony and Energy in the Spaces of Your Heart and Home

Feng Shui is the ancient Oriental art of arranging objects in order to maximize the energy and harmony in any environment. Feng Shui for Lovers uses this art with an eye on romance. In much the same way astrologers compare charts, Sarah Bartlett shows the reader how to balance the yin and yang of a relationship and the space in which it takes place to enrich and intensify the connection. Adjustments to the environment may include the strategic placement of candles, windchimes, mirrors, colors, and plants, all in accordance with traditional Chinese practice. Whether your aim is to attract a new love or hang on to the old, whether you live in a house or in an apartment, by applying the basic principles of Feng Shui you can simply, cheaply, and quickly bring magic back into your home and your heart forever.
