

But Mom, I Dont Want to Move! (Focus on the Family)

When a child hears the words 'We're moving!' it can trigger a range of reactions from excitement and anticipation to anxiety and anger. *But Mom, I Don't Want to Move!* gives parents the guidance they need to get their children through this major change. Susan Miller, author of *After the Boxes Are Unpacked*, provides specific ideas, based on the ages of children and the reason for relocating, that will make the adjustment to a new house, school, and community as smooth as possible.
