

## Composing Love

A satisfying category romance from Entangled's Lovestruck imprint. He'll tempt her down a wild path... Composer Minh Jackson needs her big break. Fast. Gifted, dedicated, and ambitious--none of it means anything if she can't compose a film score. So when she finally gets her big break, it should be the best day ever. But film studio owner Chris Reichert isn't exactly gung-ho about Minh. And with one look at the blond, tattooed hunk, Minh's dream suddenly feels distinctly off-key... Secretly, Chris is completely attracted to--and distracted by--Minh. He also knows better than to get involved in anything serious. Yet as the days pass and the score begins to take shape, Minh finds herself noticing that there's more to Chris than she thought. And it's not long before their initial physical attraction comes blazing to life. Now they've both crossed the line between professional and very personal. But all it takes is one small mistake to not only end this precarious new relationship, but bring their careers to a crashing finale...
