

Illuminati Facts and Fiction Revealed

In this audiobook you will be able to learn more about this supposed secret society that has fascinated many scholars, and even average people, since it first came into public consciousness. What is this group, exactly? In this audiobook, fiction is separated from fact so that you'll be able to understand what the Illuminati really is, as well as what the group stands for. The Illuminati has been painted in many different ways. Some think of them as an evil group that aims for world domination, while others see them as a group of men and women whose goal is enlightenment and further learning in their own respective fields. After listening this book you'll be able to form your own conclusion as to who they really are.
