

Catting Around (Kontras Menagerie Book 16)

As an orphan, Chip had never really had a home or even much to call his own. After being adopted, he had hoped he had found acceptance. Unfortunately, a year later, he shifted into his bobcat for the first time and his new parents had thought him possessed. Forced to run, Chip lived mostly as an animal for decades. Having grown up alone in foster care, it hadn't been much different and he hadn't thought it too bad until the day he had been captured and tortured by scientists. Rescued by Kontra and his gang, Chip finally sees the light at the end of the long, lonely tunnel of his life. Scarred, malnourished, and suffering from panic attacks, Chip struggles to get his body and mind back under control. When the gang visits a pride of lion shifters, Chip meets Grimes, who claims they are mates. Can he manage to get past his hang-ups and grab onto the happiness Grimes offers him?
