

The Shining Gateway: Classic Self Help Book for Motivation (Illustrated)

The Shinning Gateway describes actions and motives, dealing with temptation, religion, and more. It is one of Allens deepest and most lucid works dealing with fundamental principles of human experience. The unregenerate man is subject to these three things - Desire, Passion, Sorrow. He lives habitually in these conditions, and neither questions nor examines them. He regards them as his life itself, and cannot conceive of any life apart from them. To-day he desires, to-morrow he indulges his passions, and the third day he grieves... James Allen was a British philosophical writer known for his inspirational books and poetry and as a pioneer of self-help movement. Allens practical philosophy for successful living has awakened millions to the discovery that they themselves are makers of themselves. Allen insists that it is within the power of each person to form his own character and create his own happiness.
