

Lost Edens: A True Story

When her estranged husband asks to live with Jamie again, she ignores her instincts and her family's concerns and sets about making a perfect home for them in a California beach town. The delicate negotiation that follows is a carefully constructed reality between what Jamie is willing to acknowledge and what she is not. *Lost Edens* was acknowledged by the Sarton Memoir Award, the San Francisco Book Festival (autobiography, honorable mention), ForeWord Book of the Year Awards (women's issues, finalist), Indie Book Awards (relationships, finalist), Independent Publisher Book Awards (Essay/Creative Non-Fiction, silver), Indie Excellence Awards (Divorce), and shortlisted for the Santa Fe Writers Project.

Reader Reviews A heart-breaking story of a young woman coming to terms with her marriage, her God and, most of all, herself....The quotes on the back cover are all about references to domestic violence being more than black eyes and broken bones. I agree, but I also think they do a small disservice to the author. In the end, this is Jamie's story about self-confidence, self-love and recovery. She's the hero, not the victim. With realistic characterizations and good dialogue that will keep the reader involved and caring, *Lost Edens* is a story that needed to be told to show the signs of emotional abuse that cause people to disappear in their own lives for the sake of the other. There are many women and men out there who suffer from such abuse....If you know anyone who has had to or is dealing with such pain and anguish or you even suspect such goings on, please get them this book as a gift or even just suggest they buy it. The same goes for those that are not or have not been through anything like this as this book may well stop such things happening in the future.

Cynthia Eden writes smart, sexy and gripping suspense. Hang on . He is skeptical at the story of the lost soul in front of him, but he is also captivated by her beauty and fight. In true Eden fashion, there is undeniable chemistry and tension between Eve and Gabe that should not exist.
