Every novel in this collection is your passport to a romantic tour of the United States through time-honored favorites by Americas First Lady of romance fiction. Each of the fifty novels is set in a different state, researched by Janet and her husband, Bill. For the Daileys it was an odyssey of discovery. For you, its the journey of a lifetime. Your tour of desire begins with this story set in Kentucky. Shed made such a fool of herself. You didnt actually think you wer the only girl Barrett was seeing, did you? Marshall jeered. Hes just been seeing you because he felt some misguided sense of responsibility toward you. Dani never doubted that Marshall knew what he was talking about. Information like that was his specialty. Dani had been slow to realize that she was in love with Barrett King. Now the futility of that love swept over her. How could she face the rest of her life without him?
