

Just Let Me Walk Away

In 1966 a young Army lieutenant from small-town Oklahoma set foot in the Central Highlands of Vietnam as a raw, inexperienced Huey pilot. Ray Clark would serve two harrowing tours in Vietnam, developing his piloting skills in combat. Clark has written an engrossing, poignant, and often humorous account of Americas combat helicopter pilots and crew members: their adventures, triumphs and tragedies as they fought in a war like no other in Americas history. A natural and masterful storyteller, Clark shares a personal memoir of war that Americans should heed carefully. Just Let Me Walk Away is a chronicle of a defining point in U.S. history, a tale of an unpopular war and the soldiers charged to fight it. This riveting, personal story is written with passion, dignity, and a commitment to truth. A day in the life of these American veterans is a story largely untold, an uncelebrated truth that Clark is compelled to reveal.
