

Forbidden Love Series (SubmissiveRomance) Complete Collection

Olivia wants to get the information for her magazine article and get out until she meets Master Dean and is shown a new way of life. Here, presented in one volume, are the four stories that comprise the Forbidden Love series written in her signature style of high passion, searing depictions and emotion. Olivia is by no means shy or afraid of the darker side of herself. However, when her boss sends her to a local alternative club to gather information about the lifestyle for an article she has to write, Olivia is intimidated and overwhelmed. When a Dom, Master Dean, takes an interest in her, she's thrust into a world she never knew existed. It's exciting and it awakens her in a way she didn't know what possible. But when Dean asks her to become his sub, she must make a choice: tell him the truth about why she was there in the first place and risk him never speaking to her again. Or she keeps her secret and indulges in a new, exciting world with Dean as her guide. This ebook contains very hot descriptions of romantic activity. Only mature readers should download this book.
