

Mastering Book-keeping: A Complete Guide to the Principles and Practice of Business Accounting

NINTH EDITION now featuring specimen examination papers of all the major boards, including OCR, AQA, AAT, ICB and IAB. Double-entry accounting can be easy if its explained well, and Mastering Book-keeping does just that. Now in its updated 9th edition, this popular book has helped thousands of people to get to grips with book-keeping. It explains the principles and practice of book-keeping sequentially, and includes: - The daybooks and ledger accounts - End of year accounting - Sole proprietorships, limited companies, partnerships and not-for-profit organisations - Using computers for accounting - Accounting for VAT - Progressing to more advanced management accounting - The implications of the Data Protection Act 1998 on book-keepers Plus step-by-step guides to compiling a balance sheet, depreciation, accounting for bad and doubtful debts, and much more. Everything is made clear with easy-to-follow explanations. Typical transactions are illustrated throughout to make the information even easier to understand. This book is suitable for those preparing for the examinations of ICB, AAT, IAB, OCR, AQA and all other courses in book-keeping and accounts.
