

Mortal: The Books of Mortals, Book 2

Centuries have passed since civilizations brush with apocalypse. The worlds greatest threats have all been silenced. There is no anger, no hatred, no war. There is only perfect peace...and fear. A terrible secret was closely guarded for centuries: every single soul walking the earth, though in appearance totally normal, is actually dead, long ago genetically stripped of true humanity. Nine years have gone by since an unlikely hero named Rom Sebastian first discovered a secret and consumed an ancient potion of blood to bring himself back to life in Forbidden. Surviving against impossible odds, Rom has gathered a secret faction of followers who have also taken the blood - the first Mortals in a world that is dead. On the heels of Forbidden comes Mortal, the second novel in The Books of Mortals saga penned by Ted Dekker and Tosca Lee. Set in a terrifying, medieval future, where grim pageantry masks death, this tale of dark desires and staggering stakes peels back the layers of the heart for all who dare take the journey. The Books of Mortals are three novels, each of which stands on its own, yet all are seamlessly woven into one epic thriller.
