

Murders of London: In the Steps of the Capitals Killers

A black plague guide to Londons most captivating crime scenes. The third title in the series that has brought us Derelict London and Londons Lost Rivers, David Longs Murders of London is a new and intriguingly macabre way of discovering and exploring the capital. Taking 60 of the citys most fascinating and most infamous murders from the nineteenth and twentieth centuries, David Long visits the scene of each crime and tells the story of what happened to whom, at whose hands, and -- where known -- why. Hot on the heels of Jack the Ripper and Lord Lucan we stalk the dimly lit alleyways of Whitechapel and the well-heeled streets of Belgravia; Ruth Ellis takes us to a pub in Hampstead and Alexander Litvinenkos assassins to a sushi bar in Piccadilly. Less well-known murderers haunt bridges and tube stations, hotels and theatres, but more often than not ordinary-looking roads and buildings whose gruesome past is almost forgotten. We find out what drove people to dark and violent acts, how crimes were discovered and mysteries solved. Above all, we track the evolution of a city whose underworld has always had a strange power to frighten and yet entertain. Featuring maps and photos to help you plan your own murder walk, Murderous London is the perfect guide to the citys shadiest, most enigmatic haunts.
