

Naked

Welcome to the hilarious, strange, elegiac, outrageous world of David Sedaris. In *Naked*, Sedaris turns the mania for memoir on its ear, mining the exceedingly rich terrain of his life, his family, and his unique worldview—a sensibility at once take-no-prisoners sharp and deeply charitable. A tart-tongued mother does dead-on imitations of her young sons nervous tics, to the great amusement of his teachers; a stint of Kerouackian wandering is undertaken (of course!) with a quadriplegic companion; a family gathers for a wedding in the face of imminent death. Through it all is Sedaris's unmistakable voice, without doubt one of the freshest in American writing.
