

THE LAW OF NEW THOUGHT: From the Law Of Attraction to The Soulss Awakening (Timeless Wisdom Book 105)

The Law of New Thought describes the history and Principles of New Thought, as well as the main laws that govern it. From the law of attraction, and the premise that thoughts are things; to the need to build our mind power to control our fears. From the need to conquer the different planes of the mind, to the development of the super-conscious faculties; from the questions of the soul (like the need for awakening, and the path to immortality); to the oneness of all and the Absolute. A book for enlightenment, that will provide the seeker the one who is ready and is paying attention-, some of the deepest answers of life. William Walker Atkinson was one of those men whose life was committed to enlighten the world with the wisdom of the ages. Among the first to develop the concept of Law of Attraction, Atkinson is considered, together with Orison Swett Marden and Wallace Wattles, the masters of self-development and positive thinking, and the real promoters of New Thought, a movement that came very much to life again with the Millennium. In over 100 books, he brilliantly captured the essence of life, success, and the traditions of the East, becoming one of the best collections in personal and mind-development in existence.
