

## Circle of Friends: #38 Catherine & Hayley

Catherine was in the process of unraveling a mystery that was not only hurting her younger patients but was illegal. Someone was convincing troubled girls under their control to trust them enough to give up their babies. Then their memories were taken away. She was fairly certain it was a cult posing as a church. Nothing new there.

Hayley was an agent for the local FBI who had also been quietly tracking the man running the church. Neither one of them were prepared for the men that found their ways into their already active lives.
