

Torn Apart (African American Romance)

When Rhonda Downing met her first love, she thought their union was meant to be. Smart, innocent and inexperienced, Rhonda fell head over heels in love with the equally intelligent yet smooth, persuasive, and worldly David Barnes who was trying his best to have his own identity outside of the family name and reputation that came along with it. Torn Apart is a window to the world of African American romance and sex. It takes the reader through Rhonda's journey as she falls in and out of love, discovers heartbreak, ventures into lust, sex and romance, seeks out her independence and discovers that life has plenty more to offer than what she has become comfortable with settling for. The question is can she break away from the familiar in order to experience the best love of her life?
