

Pagan and Christian Creeds

The process of the evolution of religious rites and ceremonies has in its main outlines been the same all over the world, as the reader will presently see and this whether in connection with the numerous creeds of Paganism or the supposedly unique case of Christianity; and now the continuity and close intermixture of these great streams can no longer be denied nor is it indeed denied by those who have really studied the subject. It is seen that religious evolution through the ages has been practically one thing that there has been in fact a World-religion, though with various phases and branches.
