

Partners (Fire & Lies) (Volume 1)

~Chloe~ Rules are made to be broken
That's what they say but I used to follow the rules. I used to have pride, honour, and obedience. I was raised to believe that in the world in which I lived, money and power ruled, and everyone made sacrifices. I knew my priorities. Family first. The company second. And what I wanted a very distant third. I followed the rules, but couldn't have known that obedience would ultimately cause betrayal. On many fronts.
My father was framed, and I'll do whatever it takes to put the right man behind bars. My name is Chloe Donovan, and I'm going to make things right. But to do that, I need to break the law, and I can't do it on my own. I need help. The problem is, the only person capable of helping, hates me. I don't blame him. I promised him the world and then I ran away
~Aiden~ I used to follow the rules. Until Chloe Donovan. She was my boss's daughter. I shouldn't have touched her. But I did. Three years ago, she came into my life, consuming it. Consuming me. I needed her. She betrayed me, as did her father. Lies and deception. Never again. Chloe was the worst mistake I ever made. She's temptation and destruction wrapped in a beautiful package. But, my blood doesn't really fill my brain when I'm around her. Now, she's back, declaring her innocence and once again, ensnaring me with her magnetism, her beauty, her allure. I should say no. But Chloe Donovan owns me. I still want her. Her draw may be the death of me.
