

The Sage After Rain A love story

High Society or High Desert? A Washington D.C. socialite would never walk away from the power and prestige of marrying a sitting U.S. Congressman especially not to live in the high desert out west, would she? At least that's what Taya Kaye hopes the corrupt elected officials from inside the Washington beltway assume. Faced with the choice of disappearing into the witness protection program, or into the high desert, Taya opts for Colorado color country and a world far removed from the glamour and hype of high society. It's not so secret as secluded, and surprisingly, after what she's been through at the hands of those in power, Taya is just fine with that. It's peaceful and simple. Unpretentious. Safe.

After all, what could possibly happen to her in the desert, where the smell of the sagebrush after the desert rain is like a drug? And who knew she'd discover the most masculine and intriguing man she'd ever met out in the middle of nowhere? Sometimes power has more to do with strength, than with politics. Praise for Jaclyn's books Amazingly wonderful! Adorably fun! Sweetly romantic! I so want more from this author! Shauna Wheelwright
