

Prosto Z Mostu (Straight Talking, Polish Edition)

[From English Edition] -- Native Brit Green (Jemima J; Mr. Maybe) had a hit in England with her first novel when it was published there in 1997; it follows the lives of four women (or ladettes) through lunch dates, new mates and heartbreaks. Career-minded Tasha, who has clawed her way up the ladder of British television to be a producer for a popular a.m. chat-fest, narrates in a brisk, snappy monologue. Although she prides herself on her stylish clothes and glamorous job (Im generally thought of as strikingly attractive, she notes), what she really needs is the love of a good man. The problem? Shes a sucker for rakes who make her pulse race, treat her horribly and break her heart. Smitten with commitment-phobic Simon, Tasha gets to know his best friend, Adam, to whom she turns for support when Simon calls it quits. Adam and Tasha become great friends-until he announces he loves her. These are the words Ive longed to hear. For years Ive dreamed, of being in this situation, of sitting on a terrace, lit by candlelight, facing a man who I love, who tells me he love me too. But this is Adam, Tasha moans. I love Adam but I dont want his tongue in my mouth, his hand on my breast, his body in my bed. Eventually, Tasha decides to give dating Adam a try, but her desire for passion continues to haunt her until shes forced to choose between warm stability with Adam and scorching hot sex with a handsome stranger. Though this volume has some of the familiar Sex in the City/Bridget Jones Diary spark, its neither as charismatic nor humorous as Greens later works.
