

Kates Crew (Powertools Book 1)

Nothing's sexier than a man, or five, with power tools. Sultry summer heat has nothing on the five-man crew renovating the house next door. No one could blame Kate for leaning out the window for a better view of the manscape. The nasty fall that follows isn't part of her fantasy but the man who saves her from splattering the sidewalk is definitely the star. When Mike personally attends to her injuries, she realizes her white knight in a hard hat has a tender side, giving her no choice but to surrender to the lust that's been arcing between them since day one. In the aftermath of the best sex of her life, she whispers her most secret desire: to be ravaged by his crew. She never expected Mike would dare her to take what she wants or that the freedom to make her most decadent desires come true could be the foundation for something lasting.
