

## Blessed Homecoming

The hometown girl and the handyman both carry emotional baggage. Are they destined to remain friends or is there room in their hearts for more? \*\*\* Wendy Danforth is preparing to be a single mom, her ex-husband in jail for spousal abuse. She returns to her hometown, to renew her faith and to heal. Caught off guard by the handyman in residence, attraction hits, swift and piercing, but she quells her unruly emotions, in no hurry to get involved in another relationship. Besides, at almost nine months pregnant, she wasn't exactly looking her best. Jake Roberts, hired to renovate the Danforths house, took one look at his employer's daughter and wanted to run far and fast. He hadn't possessed an ounce of faith or been around a pregnant woman in three long years, not since his wife and unborn son died in an auto accident. They become friends, and when her ex-husband escapes custody, he steps up to protect Wendy and her unborn child. Will the danger and close proximity test their friendship? Or will it lead to more? Can Jake regain his lost faith, or will it elude him forever?
