

Profiling: The Psychology of Catching Killers

The true stories of how professional profilers help catch serial killers.

Profiling reveals the confidential arsenal of tactics that real-life FBI investigators used to solve some of the most horrific murders in modern history. It begins with an overview of how profiling was first developed as a viable technique, followed by illustrated chapters that describe the specific parts of the profiling process:

The FBI's crime scene analysis procedure

Crime scene facts and evidence The organized and disorganized classifications of violent serial offenders

Geographical profiling Types of rape and the clues they leave A serial killers crime signature

Identifying child abductors and abusers

Profiling criminals through written documents How profilers work with other investigators and interrogators

Profiling focuses on 50 notorious true crimes to explain profiling, describing how crime scene evidence is processed and revealing the psychological clues and how the profilers helped to solve the case. Some of these headline-grabbing cases are:

The Black Dahlia murder investigation

David Carpenter, the Trailside Killer

Robert Hansen, a highly organized killer who abducted prostitutes and left them in the Alaska wilderness so he could hunt them with a rifle Ted Bundy

Jeffrey Dahmer Profiling is the gripping behind-the-scenes story of a topic that has had fans of Criminal Minds and the CSI series glued to their television screens for many years.
